This motif started out as a mistake. I just can not follow a pattern. So when I goof I look and see what else I can do with the piece.

I really like the look of this one! And it would make a lovely tablecloth or placemat. Tatted in size 30 DMC thread it is just the right size for a coaster.

Wind two shuttles CTM. There are two split rings to climb out of the center.

As with any pattern of this kind, you may choose to cut and tie instead of doing split rings. Or you may just do one shuttle and the ball of thread. Since there are just two split rings, it is possible to use the ball of thread as shuttle two.

Needle tatters, just do what you do.

Begin a chain with a picot by tying a knot in the thread between the ball and shuttle, and then tat the first stitch a picot’s distance from the knot. The first chain is marked with an X.

The rings of the center round are marked A, B, C, etc. You should be able to tat this from the diagram on the right.

The rings that would be H and the ring in the second round that it joins to are the two split rings.

To join multiple motifs, join at the two picots at the corner of the square on each motif.

Enjoy!
